The Federal Office of Small and Disadvantaged Business Utilization Directors Interagency Council

**WELCOME**

Welcome to the Federal Office of Small and Disadvantaged Business Utilization Directors Interagency Council ("OSDBU Council") website. The OSDBU Council is an informal organization of Federal small business program officials that comes together monthly to exchange and discuss information on acquisition methods, issues and strategies; small business program initiatives and processes; and small business related outreach events that permit their respective agencies to increase their utilization of small businesses as prime and subcontractors to meet their annual requirements for services and goods.

The OSDBU Council is led by the Directors of the Federal OSDBUs who individually work closely with the Office of Federal Procurement Policy, U. S. Small Business Administration, and Heads of Contracting for each agency along with stakeholders in the implementation and execution of the Federal small business contracting programs.

The OSDBU Council host monthly meetings and each agency rotates the responsible of hosting each meeting. If you need to reach an OSDBU member, our [members' page](#) provides contact information for each of them.

**GOVERNMENT CONTRACTING CLASSROOM**

Government contracts can offer significant opportunities for small businesses, but selling to the government requires a very different approach than selling to the commercial sector. SBA has created a series of free online contracting courses designed to help prospective and existing small businesses understand the basics about contracting with governmental agencies. So whether you're just getting started or looking for ways to compete more successfully in the government contracting marketplace, check out the courses below.

# Final Thoughts

Utilize the various free resources to assist and prepare, so you don't waste time; and only meet with agencies that actually purchase your products or services

Attend small business events, network and look for teaming partners to assist with larger procurements or for work required on an acquisition that are outside your specialty

Best of Luck to you on obtaining future contracts with the Federal Government
