

NONDISCLOSURE AGREEMENT PSI ACCESS – DoD PERSONNEL

Department of the Air Force (DAF) safety reports contain privileged safety information (PSI). PSI is used solely for Department of Defense (DoD) mishap prevention, and DAF PSI may only be released or discussed within DAF safety channels, unless authorized by an appropriate official IAW DAF Instruction 91-204. Protecting privileged safety information is essential to maintaining the integrity of the process whereby mishap information is obtained and evaluated.

Privileged Safety Information includes:

- a. Analysis, findings, factors, conclusions, recommendations, and anything else revealing the deliberative process of safety investigators or officials
- b. Statements or testimony given to safety investigators pursuant to a promise of confidentiality
- c. Any information or records provided pursuant to a promise of confidentiality
- d. Computer generated animations, simulations, or simulator reenactments that include or reveal the analysis of safety investigators or confidential information
- e. Photographs, imagery, films, audio and videotapes, including staged, reconstructed, or simulated reenactments of possible or probable scenarios that would reveal the deliberative process or analysis of safety investigators
- f. Diagrams and other exhibits which depict safety investigators' analysis
- g. Drafts, notes, emails and text messages notes indicating safety investigators' analysis or confidential information

I am accessing PSI for a specific DoD safety-related purpose, thereby assisting the DAF mishap prevention program. I understand that no other use is authorized. My strict adherence to these limitations is essential to the continued success of DAF mishap investigations and accident prevention. Unauthorized use or disclosure of PSI can prevent successful protection of it in court proceedings and could lead to adverse decisions.

I understand that I shall not release nor reproduce PSI, or otherwise share it with anyone not specifically granted access to the information by the DAF in accordance with DAFI 91-204. These provisions are consistent with and do not supersede, conflict with, or otherwise alter the employee obligations, rights, or liabilities created by existing statute or Executive Order relating to (1) classified information, (2) communications to Congress, (3) the reporting to an Inspector General of a violation of any law, rule, or regulation, or mismanagement, a gross waste of funds, an abuse of authority, or a substantial and specific danger to public health or safety, or (4) any other whistleblower protection. The definitions, requirements, obligations, rights, sanctions, and liabilities created by controlling Executive orders and statutory provisions are incorporated into this agreement and are controlling. I understand that any such communication involving PSI must be made consistent with established rules and procedures designed to protect PSI.

Prior to submitting research results based on PSI to any organization outside of the Air Force Safety Center (AFSEC) or an Air Force Safety Office, I will first have it reviewed by AFSEC/JA to ensure no PSI is inadvertently disclosed.

I acknowledge receipt and understanding of the above. I agree not to reveal PSI unless authorized by USAF regulations or safety officials. I understand that I may be subject to punitive or adverse personnel action for willful or negligent violation of these restrictions.
