Trained and Approved Personnel Briefing Roster – PSI Access

Description of Briefing or AFSAS #:_____

Date of Briefing:_____

United States Air Force safety reports contain privileged safety information. Privileged safety information is used solely for mishap prevention and may only be released or discussed within USAF safety channels, unless authorized by an appropriate official. Protecting privileged safety information is essential to maintaining the integrity of the process whereby mishap information is obtained and evaluated.

This document identifies the specific information and date of disclosure; it is NOT a replacement for the Non-Disclosure Agreement required by DAFI 91-204.
